PRESIDENTS MESSAGE

At the close of the year it easy to get caught up in a whirlwind of activity. There are Holidays and gatherings, buttoning up the home as the weather stays colder, and making plans for a new year. I would like to take this moment to wish you all peace and joy; may you be happy and healthy. Please be safe inside and outside of the shop. Looking forward to seeing you again in 2015.

Pete.

AAW NEWS

Each of us should start the New Year with a membership in AAW. For the experienced turner are the bi-monthly “American Woodturner” and Symposiums. The ability of local clubs to provide guest demonstrators and organize local symposiums would be nearly impossible without the connections through the AAW. For the newer turner, on the months other than the Journal publishing is a web magazine “Fundamentals”. Fundamentals has many articles on turning projects, tips and information that is intended for the less experienced turner. I read each issue as there are many articles that of interest to turners of any experience level.

Look around your shop and think of what turning was like 25 years ago. You would not have all those new and easy to use tools if the woodturning industry did not have the customer base to make production worthwhile. The AAW has been a major influence in the growth of popular woodturning. The AAW has brought together a critical mass of curious and inventive woodturners that have developed the expanse of our woodturning world. Joining the AAW is a good way to give back and keep the community growing.

The above examples of what we get from the AAW is only a short list the advantages available to you. There are insurance programs, grants and many more programs that you enjoy but may not be aware of. Join now and be a supporting member of the woodturning community.

Jerry Klug

The holidays are right around the corner!

Give the woodturners in your life a gift sure to get almost any lathe spinning. **Here are five fabulous gifts for woodturners:**

- [Buy or renew an AAW membership.](#)
- [NEW: Sharpening Turning Tools](#) ~ AAW's newest resource book (72-pages)
- [Turning smock](#) ~ Stylish, yet practical in royal blue
- **T-shirt** ~ Sporty black shirt complemented by the AAW logo in [men's](#) and [women's](#) sizes.
- **Instructional DVDs** to help build a solid woodturning foundation: [Fundamentals of Sharpening](#); [Turning Projects from Scrap](#); and, [Skill Building Projects](#).

[Browse all of AAW's great merchandise in our online store.](#) (Make sure to sign in to the AAW website to receive preferred AAW member pricing.)

DALE'S SHOP PROGRESS

November progress is showing siding being put on west side. All the other siding is on. The sheetrock and plywood are on the inside.

TREASURERS REPORT

The next meeting is in January, which is membership renewal month. Here, once again, is the procedure.

1. Get an envelope from me with the application and membership card enclosed.
2. Fill out the application. If nothing has changed from last year, you can fill in your name and email address only, but please fill out those two fields so I know whose envelope it is.
3. Insert \$35 cash or a check for \$35 in the envelope. I don't carry a lot of \$5 bills to make change, so if I run out I'll consider your 2 \$20 bills your membership fee and a contribution to our general fund.
4. Tuck the flap into the envelope to keep the application and payment inside.
5. DO NOT write your name on the envelope or seal it.
6. Return the envelope to me.
7. Write your name and fill in the '15' in the year field on the membership card

Enjoy the meetings in 2015.

That should cover it.

Howard

NOVEMBER DEMO

Stephen Hatcher left us with a lot of information on turning platters, tea pots and translucent pieces. Here are the links to his demo information;

Angle grinder Sanding Pad to Drill Adapters, Sanding Pads, and Sandpaper

[Vince's Wood N' Wonders](#) carries excellent products in my opinion. You have to call and request the 5/8 angle grinder to 1/4" shaft adapters to use that type of sanding pad without an angle grinder.

Small Sanding Mandrels & Pad

[1" sanding mandrels](#) and [1" velcro discs](#) are what I use with the Dremel right angle adapter.

[Widget Supply](#)

In addition to the information that Stephen supplied on the materials he uses, there is interest in having the club order chemical resistant spray bottles. The club did this after Stephen visited a few years ago and those bottles still work in alcohol service.

Another product is wide Velcro. Making up inter pads to keep the sanding discs from overheating. Having extra sanding mandrels so you switch mandrels instead of sand paper on a single mandrel as you go through the grit steps is handy too. Wide Velcro is a better choice to make the pads as you can efficiently cut for the pad size you need. If there is enough interest, a group order will greatly reduce the cost of the Velcro by buying in quantity. Contact Skip Burke if you are interested in either the spray bottles or wide Velcro. There must be enough interest to purchase in quantity to make this effort worthwhile.

OREGON WOODTURNING SYMPOSIUM

2015 Wood Symposium: Albany, Oregon

Plan now to attend the first annual woodturning symposium right in your back yard. If it were any closer, you could get your bicycle out and ride there. What an opportunity so close to home. Come and help make it a success! Registration opened on September 15, 2014. The woodturning symposium will be held in Albany, Oregon at the Linn County Expo Center March 6-8, 2015. Lead demonstrators are Trent Bosch, Jimmy Clewes, Kirk DeHeer, Lyle Jamieson, Dale Larson, Eric Lofstrom, Mike Mahoney, Sarah Robinson, Dave Schweitzer, Nick Stagg, and Molly Winton. There will be at least 11 total demonstrators with over 40 live demonstrations, a vendor showcase, instant gallery, live auction and of course a delicious banquet. You will find the website address at www.oregonwoodturningsymposium.com for further information.

The Symposium committee has put together this list for Cascade members to see how much work it will take to pull this off. People can then pick and choose to sign up for particular jobs. We appreciate all of your help in organizing this symposium.
